on demand bis/jusqu'au 31.12.2021

## State-of-the-Art Symposium Schwabe Pharma

LIVESTREAM  
from UK

26.08.2021 | 10.45 – 11.30 Uhr | virtuell

**Prof. Dr. Raymond J. Dolan**

*is focused on the neurobiological processes of human decision making. To study neural replay in the context of reward and punishment, as well as in the study of anxiety and depression, he is using data from behavioural analysis, computational modelling, psychopharmacological manipulations and brain imaging.*

# Neural replay and the language of the unconscious

**Prof. Dr. Raymond J. Dolan**

Mary Kinross Chair of Neuropsychiatry;  
Director, Max Planck University College London  
Centre for Computational Psychiatry and Ageing

**Begrüßung / Bienvenue**

Prof. Dr. med. Martin Hatzinger, Solothurn

 Präsentation in Englisch
